

Hassan Abdulahi

Software Engineer

I am a curious and motivated software developer who enjoys learning how systems work end to end. I have experience building web solutions and collaborating in agile teams, and I am always focused on expanding my knowledge. I enjoy taking initiative, learning from others, and growing myself professionally.

Bachelor's Degree in Software Engineering University of Southern Denmark

09/2021 - 01/2025

Odense

EXPERIENCE

Software Developer, Project-Based Nybilpris

03/2025 - 04/2025

Odense

My Tasks

- Developed a car management system using Next.js and TypeScript
- Implemented CRUD operations for car models and brands
- Built reusable React components
- Managed API and data retrieval from a backend
- Implemented a search feature for data filtering
- Integrated NextAuth with Google provider

Software Developer, Intern Rotoy

02/2024 - 07/2024

Odense

My Tasks

- Developed a web-based gaming platform where users could navigate stories and answer questions
- Utilized Next.js, TypeScript, MySQL, and Tailwind CSS to enhance platform functionality and user experience
- Collaborated with my team to develop the company's landing page: <https://www.rotoy.dk/da>
- Actively participated in SCRUM processes and delivered solutions iteratively in close collaboration with the team
